

At Beyond Organic, we believe that reducing your exposure to environmental toxins is one of the most critical—and yet overlooked—aspects of managing your health. Every day, women and men alike apply up to dozens of personal care products on their skin—oftentimes without realizing the number of toxic chemicals that are contained in those products.

Our Beyond Body Care line is 100% Certified ToxicFree® with ingredients from organic, wildcrafted, eco-friendly sources and no animal testing. We never use toxic ingredients such as: Propylene Glycol, Polyethylene Glycols (PEGs), Sodium Lauryl Sulfates (SLS), Monoethanolamine (MEA), Parabens, Phtalates, Lead, Mercury, Coal Tar, Artificial Colors or Fragrances, Methylisothiazoline (MIT) and unfortunately the list goes on.

Put your trust in body care products that help you feel and look your best, without the “toxic load” that you, and your family, would much rather avoid.

Beyond Body Care Botanical Hand Wash

Most hand washes contain detergents that strip the oils from the skin right along with the dirt. Your busy hands deserve to be washed with a cleanser that will leave them feeling softer and more pleasant than before washing. Apply an amount of hand wash the size of a dime, verses the typical size of a quarter. You'll need less than you think - so try a little and see how far it goes.
